## COMPLETE WATER DELIVERY SYSTEMS

SUPPLYING WATER HOW YOU NEED IT!

### DUST SUPPRESSION

Used on site access roads, large holding transport yards, road construction sites, earthmoving sites and more – anywhere that dust is being generated.

### LANDSCAPE MAINTENANCE

Road verge watering, batter watering, tree watering – anywhere you need to keep vegetation alive.

### FIRE FIGHTING

Excellent fire fighting capability; a safety factor on every work site.

### WATER CARTAGE

The transport and transfer of water for every application. Use as a reserve water supply or to top up existing water supplies on every work site.

3000L AQUAMAX – STC03000LZB3AV \$12983\*

\$14450\* CODE: PTD03400LZB3AV  
3400L AQUAMAX UNIT

\*Prices as at Feb 14 inc GST

## AQUAMAX

### THE MULTI PERFORMANCE COMBO RANGE

- Tough poly tank mounted on a forkliftable frame for easy lift-on, lift-off convenience
- Honda GX160 powers an Aussie Fire Chief centrifugal pump, delivering plenty of water – up to 490 litres/min!
- Triple deflector system easily suppresses dust with added convenience of remote actuator for in-cab on/off control
- Each deflector individually controlled by ball valves for directional spray control
- Spot dust control, rinsing and wash down operations made easy with 36m hose and reel with variable spray, twist action nozzle
